Discussion: Teachers-Student relationship; pros and cons

Discussants: Dr. Muhammad Sulaiman Abdullahi, Abdunnasir Haruna Hussain and Hauwa'u Ahmad.

PREMISE

Relationship is a connection or association. From the time immemorial, there has been relationship between different individuals, groups, communities etc., Teachers-Student association is one of such relations. This relationship is expected to be positive in order to foster good learning environment.

ISSUES

Though the relationship should be symbiotic, there are factors that sever this important association viz; Lack of regards for knowledge by both parties (Teacher and Students), lack of understanding subject matter by teachers, transfer of aggression, neglect of education by government and even students and indecent dressing by students.

MORE ISSUES...

Pros of teacher-students relationship includes; better understanding of subject by students, peaceful learning atmosphere, earning respects by teachers and even students while the disadvantages of having negative association are; poor teaching and learning, disrespect between the teachers and student, reduction in the value of education etc.

...MORE ISSUES.

The success or other of Teacher-Student relationship is in the hands of the teachers.

RECOMMENDATIONS

1. Teachers should undergo training on education in order to learn how to control the learning environment for more prosperous teaching and understanding by the students.
2. Teachers should carry all students along when teaching as all fingers are not equal.
3. Teachers should understand their students as this gives an insight on how best to teach them.
4. Students should respect teachers against all odds.
5. Government and other stakeholders should give the necessary attention to education for betterment of the teachers, students and nation entirely.
