

**PROGRAMME SUMMARY
REPORT**

Episode 34

Date: 23rd March, 2022

Presenter: Muhammad Adam Tudun Murtala

Discussion: Good Governance; Role of Youth Leaders in Creating Awareness on Voter Education

Discussants: Dr Mustapha Muhammad (Executive Director DAG) and Zulaihat Danjuma

PREMISE

Before we dive into the discussion let us take a look at who Youths are. According to the national youth policy, youths are those persons with age ranging between 18-35 years. It is often said that the level of education of youths, number of self-reliant, level of engagement in science and technology of youths in a community or nation is used to predict the level of growth for the next 10 years.

ISSUES

Since youths are an important cardinal in defining a society, youths should be actively involved in educating their societies on the pros of partaking in peaceful voting exercise and the cons of doing otherwise especially engaging in election malpractice because this has long-time effects on both them and their societies.

...MORE ISSUES.

...

RECOMMENDATIONS

1. Youths in leadership positions should shun drug abuse
2. Youth Leaders should create avenue to give awareness on Voter Education and how this will breed good governance.
3. The usage of political thugs should be discouraged
4. Youths should volunteer to help INEC register for PVC in areas they've not covered in order to help citizens exercise their rights during elections.
5. Women in political positions should come up with strategies to include younger women in leadership positions.
6. We should all know that getting leadership positions is not a do or die affair.
